TO : Mr. [REDACTED]

SUBJECT: Uncompensated Overtime

1. At your request, I checked with Office of Finance to determine whether a record had been maintained of the uncompensated overtime reported on Time and Attendance Sheets submitted by Agency personnel since July 1959, the effective date of the 8-hour-per-week uncompensated overtime rule. I was advised that no such record was maintained.

25X1A9a 2. However, in discussions with Mr. Frank [REDACTED] who was in EPAM until recently, I learned that he had prepared reports at the end of Calendar Years 1962 and 1963 reflecting the estimated number of hours worked by Agency employees without compensation for those two years. Although I have not been able to locate copies of these reports, I have obtained a copy of the work papers (see attached) used in developing the numbers of hours and dollars reflected in the reports.

3. You will note that the estimated uncompensated overtime in DD/P for Calendar Year 1963

was 269,903 hours which at \$4.28 per hour, would amount to \$1,255,184.84. It is also noted that the DD/P total (269,903 hours) is 46+ $\frac{1}{2}$  of the Agency total (582,540 hours) for Calendar Year 1963.
